Processed Water Disposal System Technical Evaluation Report,
Revision 1

Dear Sirs:

Attached for your information is Revision 1 to the Processed Water Disposal System Technical Evaluation Report (Evaporator TER). This revision incorporates, as appropriate, responses to earlier NRC comments and minor modifications made to the evaporator as a result of system testing. These changes do not modify previous commitments with respect to system effluents and operational performance (i.e., Decontamination Factor greater than 1000). Therefore, GPU Nuclear has concluded that NRC approval of this revision is not required.

Sincerely,

M B Roche
M. B. Roche
