Mr. Charles E. Norelius, Director
Division of Radiation Safety and Safeguards
U.S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, IL 60137

RE: License No. 34-19089-01

Dear Mr. Norelius:

We are in receipt of your letter dated June 30, 1989 regarding the Oak Ridge Associated Universities Final Report. However, as was discussed at length with Mr. Slawinski of your staff, the Oak Ridge Report inaccurately portrays the restricted and unrestricted areas at the London Road facility not only currently, but at the time of inspection as well.

In light of this, we do not understand your position regarding this report. It does not make any sense to us that you would issue a report that is contrary to your inspector's findings.

We further do not understand why you would send an inspector out to clarify information on the very day that you intended to issue the report, regardless of inaccuracies.

These visits require excessive amounts of time and resources. We hope that in the future such matters can be handled more efficiently.

Sincerely,

SHERRY J. STEIN
Director, Regulatory Affairs
