SUBJECT: LICENSEE CONFIRMATION OF ITS RESPONSE TO NRC GENERIC
LETTER 89-07, SAFEGUARDS CONTINGENCY PLANNING
(TAC NOS. 74678, 74693, 74694, 74695)

By letter dated October 6, 1989, the licensee responded to Generic Letter 89-07. In its response, the licensee confirmed that appropriate procedures have been written and approved to address contingency planning for short-term actions that could be taken to protect against radiological sabotage involving a land vehicle bomb if such a threat were to materialized.

Therefore, we consider this action complete for the Haddam Neck Plant and Millstone Nuclear Power Station, Units 1, 2, and 3.

By copy of this memorandum, Region I is advised of the licensee's position in this matter.
