Region I
Att: Material Licensing Section
475 Allendale Road
King of Prussia, PA 19406

Dear Mr. Courtemanche:

Following your conversation of the 5 of September, 1989 with Dr. Ludwik Kowalski, we would like to express our desire to extend our license for the Pu-Be neutron source.

This source is being used in our department for teaching and training only, in the same way as it was specified in the current license which was renewed on August 29, 1984.

We thank you for the reminder and we are sorry for the delay in renewing the license.

Sincerely yours,

Richard H. Hodson

Richard H. Hodson, Chairman
Physics and Geoscience Dept.
