

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

PDR

October 18, 1989

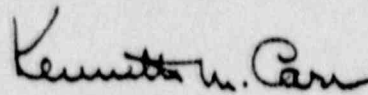

The Honorable Thomas E. Petri  
U.S. House of Representatives  
Washington, D. C. 20515

Dear Congressman Petri:

In response to your September 25, 1989 request for the services of Mr. R. Stephen Scott to assist in your efforts to improve Federal office environments, I am pleased to advise you that the Nuclear Regulatory Commission can make Mr. Scott available to you on an intermittent basis during the 101st Congress. I agree that his participation in your project would provide an excellent opportunity for him to develop greater familiarity with the design, construction, and management of Federal buildings that could greatly benefit the Commission's project to construct a second building at our White Flint site. Ms. Joyce Amenta, Director of our Office of Information Resources Management, will contact your staff to discuss the detailed arrangements for Mr. Scott's participation.

I want to thank you for your kind remarks about my appointment as Chairman of the Commission and to express my appreciation for your support of our Two White Flint North project, which will complete our effort to consolidate the agency's headquarters staff in a single location.

Sincerely,

  
Kenneth M. Carr
