Dear Mr. Eury:

SUBJECT: BRUNSWICK INTEGRATED ACTION PLAN ITEM D1: REEVALUATE THE BRUNSWICK ELECTRICAL DISTRIBUTION SYSTEM FOR COMPLIANCE WITH GDC-17.

The Carolina Power & Light Company (CP&L) provided a response to the NRC's Diagnostic Evaluation Team (DET) report for Brunswick Steam Electric Plant, Units 1 and 2, (Brunswick) by letter dated September 27, 1989. As part of the response, CP&L provided the staff an Integrated Action Plan (IAP) for substantial Brunswick and corporate improvements. Item D1 of the IAP provides for a reevaluation of the Brunswick electrical distribution system for compliance with GDC-17 with a completion date of March 31, 1990. CP&L also provided a commitment to brief the appropriate NRR personnel on the results of the evaluation when it is completed.

The staff has identified a number of questions that should be answered as part of CP&L's evaluation. They are contained in the enclosure. The answers to these questions will assist the staff in understanding how the Brunswick plant complies with GDC-17.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than 10 respondents; therefore, OMB clearance is not required under P.L. 96-511.

The staff looks forward to meeting with CP&L to discuss the above-subject CP&L evaluation at your earliest convenience.

Sincerely,
