Dear Ms Kolostyak,

REF: Export License No. XU08665

The abovementioned export license was issued on May 18 1988 to provide for the export of depleted uranium in the form of UF₄ (green salt) from the United States to British Nuclear Fuels plc in the United Kingdom.

The unused balance on the license, which is due to expire in May 1990, is 8730 kgs and we would appreciate it if you could issue an amendment to extend the expiry date to May 1992. All other conditions of the license remain unchanged.

Please do not hesitate to call me if you require any additional information in connection with this request.

Sincerely,

W.H. Fisk
