Sequoyah Fuels Corporation
ATTN: Mr. Scott P. Knight
P.O. Box 610
Gore, Oklahoma 74435

Gentlemen:

On October 1, 1989, the NRC Region IV Division of Radiation Safety and Safeguards (DRSS) was reorganized. As part of this reorganization, the regional oversight of the Sequoyah Fuels Facility was transferred from the Uranium Recovery Field Office (URFO) to the Security and Emergency Preparedness Section located at the Arlington office. URFO will continue to be involved in routine inspections of your facility.

Dr. D. Blair Spitzberg has been assigned as Regional Project Manager of Sequoyah Fuels Facility and is the new regional contact. His telephone number is (817) 860-8191. Correspondence to the Regional Office should be addressed to my attention.

The above changes do not effect licensing matters which will continue to be worked through the Fuel Cycle Safety Branch of NRC Headquarters.

Sincerely,

L. A. Yandell for

A. Bill Beach, Director
Division of Radiation Safety
and Safeguards
