Dr. Thomas E. Murley, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Subject: Quad Cities Station Unit 2  
Reactor Level Reference Leg  
Modification Schedule - Generic  
Letter 84-23  
NRC Docket No. 50-265

Reference: Letter from R. Stols to T.E. Murley  
dated August 3, 1989.

Dr. Murley:

The referenced letter transmitted a revised schedule for installation of the reactor level reference leg modification at Dresden and Quad Cities Stations. Upon further review of the reference letter, it was discovered that the schedule for Quad Cities Unit 2 eleventh Refueling Outage was inaccurate. The eleventh Refueling Outage for Quad Cities Unit 2 is currently scheduled for September, 1991. The Dresden Units 2 and 3 and Quad Cities Unit 1 Refueling Outages were verified to be correct as indicated in the referenced letter.

Commonwealth Edison regrets any inconvenience this error might have caused. Please direct any question regarding this matter to this office.

Very truly yours,

R. Stols  
Nuclear Licensing Administrator
