Dear Mr. Winslow:

This is in regard to your letter, with attachments, dated September 5, 1989 whereby you submitted proposed changes to your currently approved Fundamental Nuclear Material Control (FNMC) Plan.

We have determined that the method you propose for the verification of shipper's measurement values relating to receipt of UF₆ from domestic licensees is consistent with the regulatory requirements of 10 CFR 74.31(a) and does meet the intent of regulatory guidelines and standards. We have further determined that these changes, made pursuant to the requirements of 10 CFR 70.34, are also acceptable in that the changes will not decrease the effectiveness of your safeguards program, nor will they adversely affect the common defense and security nor the public health and safety, and are otherwise in the public interest. Accordingly, License Condition 1.1 to Safeguards Amendment SG-2 to your License No. NM-1097 is hereby revised, effective upon receipt of this letter, to read as follows:

- 1.1 The licensee shall follow Sections 1.0 through 9.0 of its Fundamental Nuclear Materials Control Plan dated December 16, 1987 - designated as Revision 0; as revised by the "Revisions By Page" - Revision 8 dated September 5, 1989 (Page 1 of the FNMC Plan) and as may be revised in accordance with, and pursuant to, the provisions of either 10 CFR 70.34 or 70.32(c).

We have determined that the attachments to your letter dated September 5, 1989 contain information of the type specified in 10 CFR 2.790(d). Accordingly, pursuant to Section 2.790(d)(1), such information is deemed to be commercial or financial within the meaning of 10 CFR 9.17(a)(4) and shall be withheld from public disclosure unless subject to the provisions of 10 CFR 9.23.

Sincerely,

Donald J. Kasun, Acting Chief
Domestic Safeguards and Regional
Oversight Branch, SGTR, NMSS
