

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20548

July 3, 1985

Lewis,

Per our conversation on Wednesday, July 3, 1985, attached is the signed NRC Form 173 relating to the "Consequences of Sabotage at Non-power Reactors" which LANL is currently conducting for NMSS. Also attached are other documents relating to this study which may or may not be helpful.

A handwritten signature in cursive script, appearing to read "Don Carlson".

Don Carlson
