Dear Mr. Sabre:

Reference is made to a recent telephone discussion between Messrs. Joe Lewis and Lewis Robertson of our respective staffs regarding DOE security approval for the placement of NRC Task #FIN A7153-5 at Los Alamos National Laboratory. This task, entitled "Consequences of Sabotage at Non-Power Reactors," is discussed on the enclosed NRC Form 187 (Security/Classification Requirements) and in the statement of work. This task will involve information classified no higher than Secret National Security Information.

It is our understanding that the classified mailing address for LANL is as follows:

Los Alamos National Laboratory
ATTN: (Intended Recipient)
P.O. Box 1663
Mail Station 5000
Los Alamos, New Mexico 87545

We have also enclosed a copy of an NRC Form 169, Facility Data Report, for your use in establishing this classified interest.

Please contact Messrs. Lewis Robertson, James Dunleavy (FTS 492-4111) or me should you have any questions regarding this interest.

Sincerely,

Raymond J. Brady
