NOTICE OF VIOLATION

GCME, Inc.

License No. 48-23409-01

As a result of the inspection conducted on October 10, 1989, and in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, (1989) (Enforcement Policy) the following violations were identified:

 License Condition No. 16 states that the licensee may transport licensed material or deliver licensed material to a carrier for transport in accordance with the provisions of Title 10, Code of Federal Regulations, Part 71, "Packaging of Radioactive Material for Transport and Transportation of Radioactive Material Under Certain Conditions."

10 CFR 71.5(a) states each licensee who transports licensed material shall comply with the Department of Transportation regulations 49 CFR Parts 170 through 189.

49 CFR Part 177.817(a) states a carrier may not transport a hazardous material unless it is accompanied by a shipping paper.

Contrary to the above, since approximately August of 1989, the licensee had not used shipping papers, during transport, to accompany their Humbolt gauge containing licensed material.

This is a Severity Level IV violation (Supplement V).

 Licensed Condition No. 18 states that the licensee shall conduct its program in accordance with the statements contained in the application dated May 8, 1989.

Item No. 10 of the referenced application states that when using the equipment, you will wear the personnel monitoring device that has been assigned to you.

Contrary to the above, since approximately August 15, 1989, the licensee has not worn personnel monitoring devices.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, you are required to submit to this office within thirty days of the date of this Notice a written statement or explanation in reply, including for each violation: (1) the corrective steps that have been taken and the results achieved; (2) the corrective steps that
