Licensing Catawba and McGuire Reloads, JHT/89-208,
October 6, 1989.

Dear Mrs. Mossburg:

On October 6, 1989, Revision 2 to the BEACH Topical Report (BAW-10166P) was submitted to the NRC. That revision was sent as an attachment to the reference letter. Both the letter and the revision pages contain information that is considered proprietary as sworn by me as Manager, B&W Licensing, in my affidavit presented with our July 29, 1987 submittal of the draft report and should be treated as such. A copy of that affidavit is attached for your convenience.

Very truly yours,

J. H. Taylor
Manager, Licensing Services
