Dear Mr. Smith

SUBJECT: REORGANIZATION FOR NUHOMS

We have reviewed your letter of September 13, 1989, concerning your company's name change. It indicates that all NUHOMS (Nutech Horizontal Modular Storage Systems) activities are being performed by a new subsidiary within Pacific Nuclear Services, Inc., Pacific Nuclear Fuel Services, Inc. It further indicates continued use of the Nutech QA Manual until a revised manual and revised implementing procedures are issued. Finally, a commitment is made that, in the interim, NUHOMS projects will continue using the same (Nutech) QA program, office facilities and personnel. This is acceptable to the staff.

We note, however, that Chapter 11 of the NUHOMS topical reports (NUH-001, Revision 1, and NUH-002) both refer to NUTECH's QA program and QA manual. These references will need to be changed. Your schedule for issuing the revised QA manual and implementing procedures "within the next three months" is acceptable to the staff. Please provide a schedule for revising Chapter 11 of the NUHOMS topical reports.

Any questions on the above should be addressed to the staff QA reviewer, Jack Spraul, on 301/492-1023.

Sincerely,

Anthony T. Gody, Chief  
Performance & Quality Evaluation Branch  
Division of Licensee Performance  
and Quality Evaluation  
Office of Nuclear Reactor Regulation
