ATTN: Mr. Cordell Reed
Senior Vice President
Post Office Box 767

Gentlemen:

This refers to the special safeguards inspection conducted by Mr. J. L. Belanger of this office on October 18-19, 1989, of activities at LaSalle Nuclear Power Station, Unit 1, authorized by NRC Operating License No. NPF-11, and to the discussion of our findings with Mr. J. Walkington and other members of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as described in the enclosed Notice. The inspection showed that actions had been taken to correct the identified violation and to prevent recurrence. Our understanding of your corrective actions is described in Paragraph 3 of the enclosed inspection report. Consequently, no reply to the violation is required and we have no further questions regarding this matter at this time.

Areas examined during this inspection concern a subject matter which is exempt from disclosure according to Part 73, Title 10, Code of Federal Regulations, Section 73.21(c)(2). This information must be handled and protected in accordance with the provisions of 10 CFR 73.21. Consequently, the enclosure to this letter and our report of this inspection will not be placed in the NRC Public Document Room.
