MEMORANDUM FOR: John F. Stoiz, Chief, LWR-1, DPM
FROM: R. Wayne Houston, Chief, IS&EP, DPM
SUBJECT: RESPONSE TO STANDARD REVIEW ASSIGNMENT
DAVIS-BESSE NUCLEAR POWER STATION, UNIT 1
REVIEW OF INDUSTRIAL SECURITY PLAN (TAC# 09133)

Applicant: Toledo Edison Company
Licensing Stage: OL
Branch and LPM Requesting Assistance: LWR-1, L. Engle
Review Branch Involved: IS&EP:PM
Review Status: Complete
Reference: (1) Letter from L. E. Roe, (TE), to J. F. Stolz, (NRC),
dated February 2, 1977
(2) Memo from R. W. Houston to J. F. Stolz dated
February 16, 1977

We have reviewed Revision 5 to the Davis-Besse Unit 1 Security Plan as submitted with licensee's letter dated February 18, 1977. The revision provides revised pages to the plan which document the commitments previously transmitted in reference (1).

We find that the revised pages identified as Revision 5 accurately reflect the applicant's previous commitments and therefore do not alter our previous finding as reported in reference (2). Thus, the current approved plan consists of the proprietary document entitled, "Davis-Besse Nuclear Power Station Industrial Security Plan," Revision 4, submitted by letter dated November 15, 1977 and revised by Revision 5 submitted with the applicant's letter dated February 18, 1977.
