REP. OTTINGER'S REQUEST FOR PSAR FOR DAVIS-BESSE

Bob O'Neill had a call today from Rep. Ottinger's office for a copy of the PSAR on the Davis-Besse plant. O'Neill described the limited number of copies of PSARs available, and asked if the Congressman wanted it himself or if it was for a constituent. Ottinger's office said he wanted it for himself and a constituent. I checked with Frank Logan and found an extra copy of the PSAR was available along with copies of 10 amendments that had not been interfiled. Logan estimated it would take at least a full day to interfile the amendments.

Since Ottinger's office wanted this right away, we sent O'Neill the PSAR with the unfiled amendments. O'Neill said he would transmit it to Ottinger with a note to return it to AEC when it had served their purpose.
