Docket No. 50-346

Gentlemen:

The enclosed Circular, No. 76-01, is forwarded to you for information and action. This is the first issue of an expanded system for communication from the Office of Inspection and Enforcement to applicants and licensees, to supplement the issuance of IE Bulletins.

Bulletins have been, and will continue to be, limited to subjects considered to be of appropriate significance to require prompt response. Circulars will cover subjects of lesser significance or immediacy for which a longer response time appears appropriate. Circular No. 76-01 contains the same subject matter as Bulletin No. 76-07, which is being issued concurrently. If you are also the holder of a NRC Operating License, you will also receive a copy of Bulletin No. 76-07 which will require a separate response. The only difference between the two documents is the time allowed for response. Future IE Circulars may be addressed to any class of NRC licensees, and may or may not require response.

Sincerely,

James G. Kappler  
Regional Director
