Re: [unclear]

We have completed our review of the Crystal River, Unit 3 (CR-3) Industrial Security Plan (ISP), as revised through Revision 3. The original submittal, and revisions thereto, consisting of proprietary documents, are as follows:

1. Original submittal, dated October 9, 1973, submitted with letter dated October 12, 1973;
2. Revision 1, dated December 18, 1973, submitted with letter dated December 21, 1973;
3. Revision 2, submitted with letter dated February 12, 1976; and
4. Revision 3, submitted with letter dated March 19, 1976.

Based on our review, we find that the above cited ISP for CR-3 conforms to 10 CFR 50.34(c), 10 CFR 73.40 and to the provisions of Regulatory Guide 1.17 (June 1973). Accordingly, we conclude that your proposed ISP for CR-3 is acceptable.

We find to include a condition in the Operating License for CR-3 which will state that the Florida Power Corporation shall maintain in effect and fully implement all provisions of the NRC Staff approved ISP, including the above noted revisions and those changes made pursuant to 10 CFR 50.34(p).

Sincerely,

Walter T. Butler, Chief
 Director for Reactor Branch
 Division of Reactor Operations
