

Docket No. 50-302

AUG 16 1978

Florida Power Company
ATTN: Mr. A. J. Ormston
Vice President
P.O. Box 14042
St. Petersburg, Florida 33733

Gentlemen:

This office has received a copy of your June 6, 1978 application for amendment to Facility License No. DPR-72 for Crystal River 3 which you filed with the Office of Nuclear Reactor Regulation. The application is for Technical Specification changes required to operate without burnable poison rod assemblies and revisions of the Quadrant Power Tilt values due to increased detector uncertainties. An application fee of \$4,000 for a Class III amendment was forwarded with your letter of June 6.

We have determined from our preliminary review that the requested actions are for two Class III amendments with fees totalling \$8,000 because each of the requested changes involves a separate safety issue. You should forward the additional \$4,000 promptly to this office. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If after the final evaluation of your application is completed it is determined that it was incorrectly classified, you will be refunded any overpayment or billed for any additional amount due.

If we can be of assistance to you, call 301/492-7225.

Sincerely,

Original Signed by,
Wm. O. Miller
