Mr. Walter Skallerup, Chairman  
Atomic Safety and Licensing Board  
Toledo Edison Company and Cleveland  
Electric Illuminating Company  
1155 Crest Lane  
McLean, Virginia 22101

POOR ORIGINAL

Dear Mr. Skallerup:

The enclosed correspondence addressed to me from Professor Oster and Miss Vickie Evans pertains to the Toledo Edison Company and Cleveland Electric Illuminating Company - Davis-Besse Nuclear Power Plant, Docket No. 50-346. Since the Board has been established for this matter and the Notice of Hearing issued, I am transmitting the letters for consideration by the Board. I understand that within a few days the Regulatory Staff will respond to the request for an extension of time made in Professor Oster's letter with a copy to Miss Evans. The letters from Professor Oster and Miss Evans and the Regulatory Staff's response thereto will be placed in the Public Document Room and made available to the parties to the proceeding.

By telephone today, Miss Evans asked me if her letter was in sufficient detail to be accepted as a request to intervene. I called her attention to the applicable regulations relating to requests for intervention and suggested that she address the inquiry to you as Chairman of the Board.

Sincerely yours,

A. A. Wells, Chairman  
Atomic Safety and Licensing  
Board Panel
