Dear Mrs. Lynch:

Your recent letter to the President has been referred to this office for consideration and reply.

I would like to take this opportunity to provide you a copy of a booklet which describes our safety review and reactor licensing program for protection of the public. Also included is a general policy statement explaining our procedure for implementing the National Environmental Policy Act of 1969.

Your letter has been made a part of the public record in the Davis-Besse case, and a copy has been filed in the AEC's Public Document Room in Washington, D.C.

Sincerely,

Original Signed by

Dear Mr. President:

I have never written to you before but feel the matter of the nuclear power plant being built at Port Clinton is urgent.

I, as a citizen, living in Ohio, do not want this nuclear plant built.

If we continue to build such plants, man will destroy himself in 20 years. Men work in these plants and can make mistakes-- mistakes that can prove so dangerous as to take the lives of many people. Why worry about the population explosion, when here is the answer.

Help the citizens of Ohio to fight this nuclear plant. Surely with all the research of today we can find some other way to produce electricity in our homes.

We need your help so please help.....

Yours truly,

Dennis J. Lynch, Jr.
