The Honorable Delbert L. Latta  
 United States House of Representatives  
 Washington, D.C. 20515

Dear Congressman Latta:

This is in response to your October 4, 1977 letter to Chairman Hendrie relating to worker exposure to radiation at the Davis-Besse nuclear power facility. In answer to your specific question, the Nuclear Regulatory Commission has regulatory jurisdiction over occupational exposures to workers from source, byproduct, and special nuclear material.

Pursuant to your request, I have enclosed a copy of our response to Mr. Allotta's September 23, 1977 letter which previously had been referred to the NRC by ERDA for response.

Sincerely,

*[Faint signature and name of the sender]*

Enclosure:  
 Letter to Mr. Allotta  
 dated 10/14/77

**POOR ORIGINAL**

60
