In the Matter of The Toledo Edison Company  
and The Cleveland Electric Illuminating Company  
(Davis-Besse Nuclear Power Station)  
Docket No. 50-346

Dear Ms. Clausen:

Enclosed is a copy of a document entitled "Supplemental Testimony to Final Environmental Statement Related to Construction of Davis-Besse Nuclear Power Station; Issue 6".

According to conversations that I had with Mr. Joseph Neubeiser of the Office of the Secretary of the Commission this document was apparently not incorporated into all the transcripts of the captioned proceeding, despite the fact that I gave the reporter thirty copies for this purpose during the course of the proceeding. It was to have been incorporated following page 753, pursuant to Chairman Farmakides' direction to that effect.

Please take appropriate steps to ensure that a copy of this document is distributed to the persons to whom a transcript was sent with instructions that such document is properly part of the transcript.

Sincerely,

Francis X. Davis  
Counsel for AEC Regulatory Staff

Enclosure: See page 2
