Dear Sir:

NOV 24 1970

Congratulations on your recent victory. We heaved a big sigh of relief when we learned you had been re-elected.

My purpose in writing is to request you to please actively oppose the completion of the Davis Besse Atomic Power Plant by Toledo Edison and the Cleveland Electric Illuminating Company. We have such a huge problem of air and water pollution now present that we should be concentrating on cleaning up. Adding more dangerous pollution in the name of "progress" is unbelievable.
