Florida Power
CORPORATION

August 16, 1976

Mr. John F. Stolz, Chief
Light Water Reactors Branch No. 1
Division of Project Management
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: Florida Power Corporation
Crystal River Unit No. 3
Docket No. 50-302

Dear Mr. Stolz:

As you suggested in your July 30 letter on the subject of our interim report, "Reactor Building Dome Delamination" - June 11, 1976, we are today filing amended pages (40 copies, plus 1 original) for insertion/replacement as appropriate.

On August 10, 1976, we filed our Supplement No. 1 to this report containing your formal questions and our response to each.

The pages transmitted herewith and Supplement No. 1, when properly placed in the original June 11, 1976 report, provides you with a single document which reflects our present repair scheme as implemented.

It is our intent to continue to amend this report as the repair program develops so as to have a single source document conveying to you the results of this program.

Please advise if this is not satisfactory.

Very truly yours,

J. F. Rodgers
J. F. Rodgers
Asst. Vice President

JTR/iw
Enclosures.

cc: Mr. Norman Moseley, Director
Region II IGE
Atlanta, GA
