This acknowledges receipt of your letter dated May 19, 1978, in response to our letter of March 31, 1978. We have reviewed your response relative to the adequacy of Quality Control Surveillance during the Containment Integrated Leak Rate Test (CILRT). In your reply you provided additional information, including your interpretation that your Quality Assurance Program does not require surveillance described in our citation. Based on this additional information and our further review, we no longer consider this matter to be an item of noncompliance.
