Gentlemen:

Thank you for your letters of November 17 and December 15, 1972, informing us of steps you have taken to correct the items of apparent noncompliance concerning activities under AEC Construction Permit No. CPPR-57 and of the plans you have for testing those systems which were brought to your attention in our letter of October 19, 1972. We will examine your corrective actions and plans during our next inspection.

Regarding the proposed loss of instrument air test, we will discuss this subject further during our next inspection.

Your cooperation is appreciated.

Very truly yours,

  
John G. Davis  
Director
