Docket No. 50-313

NOV 25 1970

Arkansas Power & Light Company
Attn: Mr. J. D. Phillips
Vice President and Chief
Engineer
Pine Bluff, Arkansas 71601

Gentlemen:

On the basis of our review of the information submitted in Supplement No. 19 to your application for Arkansas Nuclear One, Unit 1 and the additional information submitted in your letter of October 12, 1970, we have concluded that the safety margin associated with the proposed design of the containment building ring girder is adequate.

Accordingly, you may proceed with construction of the remainder of the containment building for Arkansas Nuclear One.

Sincerely,

Original signed by F. Schroeder *jos*

Peter A. Morris, Director
Division of Reactor Licensing
