Gentlemen:

By letter dated February 1, 1977, you submitted Amendment No. 52 to the Emergency Plan for Arkansas Nuclear One. This amendment: (a) adds extra TLDs and pocket dosimeters for fire department personnel in the control room emergency kit (Table J-1), (b) deletes the requirement that AP&L directly notify persons in the low population zone to evacuate in an emergency (AP&L has no authority to take such action), (c) deletes the requirement that St. Mary's Hospital maintain a special decontamination room, and (d) allows more flexibility in the performance of Natural Emergency drills, permitting incorporation of the Natural Emergency drill into other required drills.

We have reviewed Amendment No. 52 and have found that it is acceptable in that the ANO Emergency Plan continues to meet the requirements of 10 CFR 50 Appendix E.

Sincerely,
 Original signed by

Don K. Davis
