REGULATORY DOCKET FILE COPY

Gentlemen:

As committed in our letter of June 15, 1978, (item 8b) the following information is provided.

We have performed a scoping analysis to determine the extent of analysis necessary to determine if we have an associated circuitry problem at ANO-1. We have determined that this analysis will be extensive and have estimated our completion date to be about January 15, 1979. We will forward you the results of that analysis as soon as they are available.

Very truly yours,

Daniel H. Williams
Manager, Licensing
