Docket No. 50-313

Mr. William M. White, Chief
Division of River Basin Studies
Bureau of Sport Fisheries & Wildlife
U. S. Department of the Interior
Washington, D. C. 20240

Dear Mr. White:

In accordance with the understandings which were reflected in Secretary Udall's letter of March 20, 1964, to Chairman Seaborg, I am forwarding two sets of Volumes I, II, and III of the Final Safety Analysis Report filed by the Arkansas Power & Light Company for its Arkansas Nuclear One - Unit 1 nuclear power reactor. The reactor is under construction in Pope County, Arkansas.

We would appreciate reviewing a report from the Fish & Wildlife Service concerning those features of the proposed reactor operations which might have radiological effects on fish and wildlife.

Sincerely,

Original Signed by
K. R. Goller

Richard C. DeYoung, Assistant Director
for Pressurized Water Reactors
Division of Reactor Licensing
