Mr. Leonard Murphy
Chief, Seismology Division
U. S. Coast & Geodetic Survey
ESSA - Washington Science Center
Rockville, Maryland 20852

Dear Mr. Murphy:

In accordance with the understandings which were reflected in Chairman Seaborg's letter of October 3, 1963 to Admiral Karo, I am forwarding Volumes I and II of the Preliminary Safety Analysis Report filed by the Arkansas Power & Light Company for the proposed construction and operation of a pressurized water nuclear reactor at the applicant's site located in the southwest portion of Pope County, Arkansas. The proposed reactor has been designated as the Russellville Nuclear Unit.

We would appreciate receiving the results of a review by the Coast and Geodetic Survey concerning seismological characteristics of the proposed nuclear power reactor location which may have a bearing upon our evaluation of the suitability of the proposed site.

Sincerely yours,

Original Signed by
Frank W. Karas

for Roger S. Boyd, Assistant Director
for Reactor Projects
Division of Reactor Licensing
