Sunday, April 8

Dear Mr. Joseph Dendrie,

I am writing to urge you to fully investigate all seven plants built by Babcock Wilcox. I am concerned because I live in Ark. where we have a similar plant in Russellville. Would you please tell me the differences + similarities of the 3 mile Island plant + the one at Russellville?

Can you assure the people of Ark. that the plant at Russellville will not have an accident similar to the one in Penn.? I urge you to give this plant a full investigation + answer questions of safety. I understand that they are removing 1/3 of the fuel rods at Russellville now. Would you please tell me where + when these rods will be stored.

Thank you,  
Mary Morgan
