Dear Mr. Pack:

Enclosed are Volumes I and II of the Preliminary Safety Analysis Report filed by Arkansas Power & Light Company with its application covering the proposed construction and operation of the Russellville Nuclear Unit. The proposed reactor is to be located on the applicant's site in the southwest portion of Pope County, Arkansas.

We would appreciate receiving a report from the Air Resources Laboratory, ESSA, on the meteorological aspects of the proposed reactor location which might have a bearing upon our safety review.

Your prompt review and comments will be appreciated.

Sincerely yours,

Original Signed by  
 Frank W. Karas
