Operating Reactor Branch #2  
U. S. Nuclear Regulatory Commission

Subject: Arkansas Power & Light Company  
Arkansas Nuclear One-Unit 1  
Docket No. 50-313  
License No. DPR-51  
Intake Impingement Data

Gentlemen:

Environmental Technical Specification 4.1.2.a(2) requires submittal each month of the results of impingement monitoring at the intake of Arkansas Nuclear One-Unit 1. During the month of April 1976 the unit was in a shutdown condition which eliminated the need for this sampling. Thus, no such report is necessary for April 1976.

Very truly yours,

William Cavanaugh III  
Manager, Nuclear Services
