The licensee paid a Class III fee for their May 19, 1978 request. However, we have reassessed this request, including the licensee's request dated Jan. 10, 1979, and have determined that these requests are supplemental to the licensee's request dated Oct. 19, 1977, which is currently under Commission review. Based on our reassessment, the licensee's Class III fee should be waived.

The above request has been reviewed and is exempt from fees.
