Dear Dr. Buck:

This is in response to your telephone request of July 20, 1973 for AEC Regulatory Staff Inspection Reports relating to the Midland Plant, Units 1 and 2.

I understand that you already have reports for inspections conducted on or before January 7, 1971. (See, e.g., ALAB-132, p.17.), and that your current request applies only to subsequent inspections.

Our records indicate that eight inspections relating to the Midland Plant have been conducted since January 7, 1971. A report of the most recent inspection was furnished to the Appeal Board with our letter of July 20, 1973. Reports for the remaining seven inspections are transmitted herewith.
