Gentlemen:

Thank you for your final report dated May 27, 1977, pursuant to 10 CFR 50.55(e) regarding component cooling water pump casings. We have no further questions regarding this matter at this time.

Your cooperation with us is appreciated.

Sincerely,

R. F. Heishman, Chief
Reactor Construction and
Engineering Support Branch

MIDLAND NUCLEAR PLANT - COMPONENT COOLING WATER CASINGS
FINAL REPORT - DOCKET NOS 50-329 AND 50-330

On April 5, 1977, per 10 CFR 50.55(e) we provided an interim report on the design of component cooling water pump casings. This report is a final report in that the corrective action and the safety implications of the correction have been determined.

It has been decided to cancel the procurement of these pumps from B&W Canada Ltd. A new purchase order will be placed with another supplier.

There are no unresolved safety implications associated with this corrective action because the new purchase order specifies component cooling water pumps which are in compliance with the Midland PSAR commitments.
