Dear Mr. Keppler:

Attached are three (3) copies of the 60-day response to the subject bulletin as requested in Items 1, 2a, and 3 of Reference (a). This response addresses Dresden Station Units 2 and 3, Quad Cities Station Units 1 and 2, and Zion Station Units 1 and 2. In the case of Dresden Unit 1, due to the extended outage associated with that unit (scheduled start-up June, 1986) Commonwealth Edison has not performed the requested investigation. The requirements of the subject Bulletin will be met prior to the start-up of the unit.

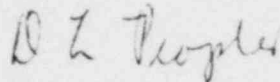

Furthermore, Commonwealth Edison has responded to the related request for information regarding the masonry wall design for LaSalle County Units 1 and 2 made in Reference (b). However, Commonwealth Edison intends to continue investigations into this area for LaSalle County Units 1 and 2 in order to comply with the full requirements of Bulletin 80-11. This additional work will be completed prior to unit startup and will be available for NRC review at the site upon completion.
