JUL 15 1980

Mr. Lionel S. Johns, Assistant Director
Office of Technology Assessment
Congress of the United States
Washington, D. C. 20510

Dear Mr. Johns:

Your June 11, 1980 letter requested that the NRC Staff provide assistance to your staff in order for you to obtain information on nuclear power plant standardization. As you know, several discussions have been held between our staffs and I understand that July 16, 1980 has been agreed upon for our staffs to discuss nuclear power plant standardization in more detail.

Based on the information that you are seeking, as outlined in your June 11, 1980 letter, I believe that such a meeting will help to clarify most of your staff's questions. Of course, we will make all of the standardization documentation available to your staff and consultant.

Should your staff need any additional information, Mr. James R. Miller of my staff will be happy to assist you. Mr. Miller can be reached on (301)-492-7014.

Sincerely,

Original Signed by
H. R. Denton

Harold R. Denton, Director
Office of Nuclear Reactor Regulation
