Dear Mr. Arnold:

In light of recent guidance to plant personnel for accountability during a site/general emergency, this is to inform you that we consider NRC personnel "essential personnel". The NRC personnel that are not monitoring plant evolutions, are to report to the onsite NRC trailer complex or to the Met-Ed Observation Center. Accountability will be accomplished there and we will provide the results to the Emergency Director upon request.

Please inform me if our actions conflict with your emergency plan so that resolution can be made.
