Attention: William J. Ofsanik

Dear Mr. Ofsanik:

This letter is in reference to your March 14, 1980 application for a license to export one specially designed valve, valued at \$1600, to India for use at the Bhabha Atomic Research Center, Fuel Reprocessing Division, (XCOM0382, your reference number 2929FE).

The Executive Branch agencies have concluded that the proposed export does not meet the licensing criteria in Section 109b of the Atomic Energy Act of 1954, as amended, for the export of nuclear equipment. The Bhabha facility is not under IAEA safeguards. Further, the proposed export is intended for use in the Reprocessing Division of the Bhabha Center, and it is not U.S. policy to provide assistance to foreign reprocessing programs. We are, therefore, returning your export license application without action.

Sincerely,

JS

James R. Shea, Director
Office of International Programs
