Harold R. Denton, Director
Office of Nuclear Reactor Regulation
Nuclear Regulatory Commission
7920 Norfolk Avenue
Bethesda, MD 20014

Dear Mr. Denton:

At a meeting we attended together in Mount Joy several weeks ago, you made reference to a booklet explaining some of the qualities of Krypton gas. You mentioned the possibility of sending one to me. I was wondering if this booklet is available, and if I could receive a copy.

Also, I found the booklet NUREG-0673 quite helpful in answering questions relating to the venting of Krypton gas from Three Mile Island's Unit II Reactor Building. Would it be possible to receive six copies to forward to several of my friends who have an interest in the venting process.

I am still of the opinion that a speedy, safe venting is important at this time and will be glad to cooperate in any way I can to encourage it.

Please give me a call if I can be of assistance.

Sincerely,

JAMES E. HUBER, Chairman
Board of County Commissioners
