and Industrial Health

MEMORANDUM

TO: Nancy Dennis  
FROM: Phillip Plato  
DATE: June 27, 1980  
RE: Progress Report No. 30, Contract No. NRC-01-77-180, June, 1980

Value/Impact Statement

On June 20, we received your comments on the first draft of our report to you on the Value/Impact Statement. We have attempted to respond to your comments including the inclusion of an estimate of costs of a mandatory testing program and a one page summary of our report. Draft #2 of the report included the changes we thought were necessary before we received your comments. Draft #3 is enclosed with this progress report. We hope this latest draft will be the final one.

Site Visits

We managed to visit one processor during June. The enclosed itinerary shows my schedule for site visits during the next six weeks. Half of this time will be a vacation for me.

Every processor I have called to arrange for a site visit has welcomed the opportunity. The schedules of key personnel at some processors have not permitted me to visit their facility at this time, but these people did express an interest in having me visit them at a later date.

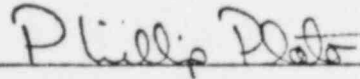

Change in Personnel

Dr. Glenn Hudson terminated his employment at The University of Michigan effective June 13. Joseph Miklos was hired as a Research Investigator to replace Dr. Hudson. Much of June was spent effecting this change in personnel which has now been completed.

8007280338

Conclusion

If you are satisfied with Draft #3 of our report concerning the Value/Impact Statement, then this task is complete. We are now concentrating on the site visit task, and we expect no problems completing this task on schedule and within budget.

A handwritten signature in cursive script that reads "Phillip Plato". The signature is written in dark ink and is positioned above a horizontal line.
