SUBJECT: EXPORT LICENSE APPLICATION TO EXPORT ONE RADIATION DETECTOR
TO CANADA (XCOMO426)

In April Reuter-Stokes, Inc. forwarded an application for a license to export one radiation detector to Canada; however, NRC has no record of receiving this license request. Pursuant to our request, Reuter-Stokes forwarded a duplicate license application which NRC received on July 21, 1980. As the detector is now urgently required by the customer, the license was issued without the normal 15-day waiting period.
