Mr. Tom A. Hendrickson  
Vice President  
Burn and Roe, Inc.  
496 Kinderkamack Road  
Oradell, NJ 07649

Dear Mr. Hendrickson:

SUBJECT: BURNS AND ROE, INC. ORGANIZATIONAL CHANGES

In your letter of June 30, 1980, you discuss a change in the Burns and Roe, Inc. corporate organization and its influence on the effectivity of the quality assurance program; you indicate that the Manager of Corporate QA has the authority and responsibilities previously assigned to QA Planning and Engineering; and, in the pages extracted from the B&R CORPORATE OPERATIONS MANUAL, you described the QA and non-QA responsibilities of the Director of Project Support and Quality Assurance Divisions. You also indicate that the position of Manager of Corporate QA, the highest position in Burns and Roe, Inc. with no responsibility outside the QA area, is equal to that of the highest line manager responsible for direct supervision of work under the QA program. Based on this information and the information provided by Mr. Rausch in his letter of May 16, 1980, we find the organization change acceptable.

We look forward to your proposed revision to the topical report which, we understand, will include these pre-approved organization changes along with other changes.

Sincerely,

*Walter P. Haass*  
Walter P. Haass, Chief  
Quality Assurance Branch  
Division of Engineering
