This letter is written to comply with paragraph 32.16 of Part 32.

Our N.R.C. License is #22-18199-01.

This annual report covers the period June 1, 1979 thru June 30, 1980.

We purchase only one radioactive item. This is a unit of four liters of neon gas containing 50 millicuries of Krypton, 85 per liter.

During this twelve month period, we have purchased and received four units of this material for our developmental work. Three of these units have been used up and one unit is presently in use.

The total quantity of material purchased during this time was 800 millicuries.

Thank you,

S. H. Bendel
