United States Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. P. F. Collins, Chief
Operator Licensing Branch

Gentlemen:

Enclosed please find Revision 6 of our Training Procedure, TP-2-1, Operator Licensing and Revision 8 TP-2-2, Licensee Retraining Program.

These revisions incorporate the requirements of Mr. Harold Denton's letter of March 1980 dealing with "Qualifications of Reactor Operators". Additionally, we have factored in many of the "Guidelines for Requalification Training and Evaluation" of licensed personnel which are contained in the INPO review copy sent to utilities on May 29, 1980.

We request your review of TP-2-1 and TP-2-2 to ensure this procedure meets our commitments to the NRC and satisfies all intents of current operator license requalification criteria.

Sincerely,

C. R. Yundt
General Manager
Trojan Nuclear Plant
